

FALL 2023  
"TIGGES FARM" PUMPKIN PATCH FIELD TRIPS

Dear Teacher, Daycare Director, Church or Youth or Church Group Leader.

We are super glad to say the Pumpkin Patch is back! We also have a new Scavenger Hunt, a Rocking Horse Corral and some Rotary Dial Telephones (*what's that?*) on display on the red airplane wing. Of course the red airplane is there, but located in the big white building. The little prairie wagon is still in front of the half circle building.

The price of the school pumpkins will be \$2.50 Regular price is \$3.00. Parents may purchase for siblings for the same school price during field trip.

Field trips can be scheduled ONLY Thursday and Friday, beginning September 28, 2023. Our time slots will fill up quickly, so scheduling as early as possible is recommended. Call 970-686-7225 10am - 6pm Thurs, Fri, Sat, Sun only to schedule by phone call. You can text other times of the day to schedule at 970-576-8970, **but be sure you get a confirmation if you text or if you leave a message at either number.**

Please check which building to use to eat or snack as we will try to not overlap groups in the grandstand with groups snacking.

If there are several teachers paying for each class separately, copy this letter have each teacher fill out the information. We need this information to match payments for each group. If possible, please collect and make ONE payment per entire group.

Individual payments by parents get confusing while serving customers that are not part of the field trip.

The field trip will be the same as past years. A story will be read. Contact person should let farm hostess know if your group wants any farm history or how to grow pumpkins on a farm added after the story is read, otherwise farm hostess will proceed on with instructions on finding a pumpkin, picking up and returning baskets, using wagons and where the restroom is.

Goggle "Tigges FarmLLC" to reach the website and the scavenger hunt to download. Or copy the ones enclosed. All four are the same, but arranged in different order so the groups have a different starting point and not everyone is at the same place at once.

Park in most available space in the parking lot (buses, vans, cars). Big busses can park parallel to the half circle building for ease and safety for unloading and loading kids as it will avoid kids walking across parking lot.

Sincerely,

*Ken Tigges, Kathy Rickart & Gale Loeffler*

12404 WCR 64 ½, Greeley, CO 80631

970-686-7225 (farm office phone 10am-6pm, Thus, Fri, Sat, Sun)
